

RETRAKT^{V2}

REFILL INSTALLATION INSTRUCTIONS

- 1 Unscrew front pen body
- 2 Place spring on chosen refill and place into front body
- 3 Replace front pen body (hand tighten only)

The RETRAKT V2 is an awesome machined pen body designed to work with the (A) Pilot G2 refill or (B) Parker compatible refill; you choose your refill when you purchase the RETRAKT V2. To clean your pen, wipe it down with a soft cloth, using mild detergent or alcohol. Never use abrasives or harsh chemicals to clean your RETRAKT V2, as it may damage the surface. The aluminum version of the RETRAKT V2 needs no special treatment to maintain the anodized finish. The brass and copper versions of the RETRAKT V2 can be polished to a nifty shine or left to age naturally, giving your pen a hard earned patina. The RETRAKT V2 is not a toy and should not be used by children as small parts may cause choking. We are not responsible for any damage caused by the misuse of the RETRAKT V2. Only use your RETRAKT V2 for good, never for evil, as this may void the warranty. Bears, beets, Battlestar Galactica™ are all things you can write with your RETRAKT V2, however we do not recommend using your RETRAKT V2 to fight bears, cut beets, or battle Cylons. All of our products are designed and manufactured by us, in the USA.
